WEST FRYEBURG.

A Social Evening.

October 30th, at the home of Mr. and Mrs. G. M. Wentworth, East Conway, N. H., the first evening social meeting of the season for the Stirling club occurred with a good attendance of the members and club husbands.

In recognition of the Halloween season the hosts had the piazzas and lawn illuminated brightly with the conventional candles in large and artistically carved pumpkins. Within as well, all was warmth and cheer. At 6 p. m. those present were served with the picnic supper which is the custom adopted for the present.

Later arrivals were not doomed to a long period of waiting ere the spread was renewed and the delicacies soon disposed of, after which five tables were brought in in preparation for the progressive whist which was the order for the evening. A few who did not play amused themselves in quiet sociability or engaged in piecing together puzzles.

At eleven p. m. the scores were recorded and D. A. Ballard was awarded the first prize and George Thompson the second. The awarding of the prizes was the occasion of much merriment so that the hour of departure was delayed by good feeling and marked by a tribute to decorum as the last guest had taken leave before the witching hour and a fair moon beamed approval upon the hosts and home-seekers.

E. W. Burbank visited his daughter, Mrs. Fannie Gile in Jackson, N. H.

Mr. and Mrs. Fred Meserve made a pleasant visit with Mr. Meserve's sister in Jackson, N. H., and returned to their home.

Mrs. Elliot Gale and little Katherine visited relatives of whom they have several in Jackson, N. H., spending a week pleasantly.

Osborne Fernald of Jackson, N. H., has been in this section several times of late disposing of apples at prices mutually satisfactory to dealer and consumer.

Mrs. H. D. E. Hutchins accompanied Mrs. Sarah J. Hutchins on the excursion to Boston and visited at Mrs. Helen (Hutchins) Mason's in Malden, Mass.

Two meetings of the Stirling Literary club during October were held and full of interest to those present engaged in the study of history, being English up to the present time making a fair beginning in French topics. At the meeting with Mrs. Charles Andrews an interesting paper relating to the Victorian era was read by the hostess. By request, Calista Andrews, a guest of Mrs. Andrews, read a magazine paper by Henry Markland relating to John of Arc, which was much appreciated. Oct. 20th at the home of Mrs. George Thompson a good deal of business was in order and left brief time for study yet some progress had been made introductory to the later interesting events of an interesting country and its people. The first Wednesday of November a meeting was held at Mrs. Thompson's but the weather being unfavorable many ventured out and the writer failed to get a report.

Mrs. Mary Charles is spending some weeks at Skowhegan.

Mrs. Olive Hutchins took in the excursion to the "Hub" the past ten days.

Mrs. Abbie Waterhouse is spending some time at T. F. Dresser's in Stow.

Mrs. J. W. Towle and daughter, Mrs. Emma Haley, were guests at Chas. Andrews', Nov. 7.

Mr. and Mrs. C. P. Smith are still at Bretton Woods, N. H., where they have been the past season.

Mr. and Mrs. Jos. Johnson, formerly of Fryeburg Center, were recent guests at Frank L. Eastman's.

Mrs. Clarence Smith went to Waterville, Nov. 6, for the winter. Her husband has employment there.

R. C. Hutchins, who has been at E. E. Walker's through the season, has closed his labors there and returned to his father's, E. E. Hutchins'.

S. Melvin Andrews, who has stopped at Mrs. S. N. Stearns' lately, is preparing to keep "bachelor's hall" in the Tom Bragdon house, recently purchased by F. B. Smith, through the coming winter.

Mr. and Mrs. F. H. Meserve took an extended trip with his brother-in-law, Osborne Fernald and wife, through the Mountains into Jefferson, Randolph and adjoining towns. The trip was much enjoyed.

Leon Hill, who has been at Mrs. A. S. Farrington's through the season, closed his labors there Nov. 6, and returned to his home at Green Hill for a few days' vacation, after which he will return to Mrs. Farrington's for the winter.

Mr. and Mrs. G. H. Coleman and family visited their friends, Mr. and Mrs. Ed. Haggatt at West Bridgton, Nov. 6-7. Mr. Haggatt was a boarder at Mr. Coleman's last season, and purchased a farm in West Bridgton in the spring following.

BYRON.

Mrs. Mabel Sawyer visited friends in Lewiston last week.

W. S. Grommett and family of Ridgelyville were in town, Sunday.

Gertrude Ladd returned Wednesday from a week's visit at West Bethel.

Green Hodson and wife from Mechanic Falls are visiting at L. A. Dunn's.

Hiram Richards of Mexico is hauling birch to the station for Roban Arsenault.

N. S. Stowell of Dixfield has purchased the Geo. Easter farm in West Byron.

Walter Easter shot a fine doe from his wagon, on the river road, Saturday night.

Clarence Young and Gervase Hodson of West Minot have been in town, deer hunting.

G. W. Richards, who has been spending the summer in Massachusetts, returned home, Wednesday.

L. A. Dunn and Oscar Nash returned from Ogunosco, Saturday, where they have been working for the Berlin Mills Co.

Merna and Alice Thomas were at home for a few days, owing to the closing of the Mexico high school on account of diphtheria.

The Burbank Comedy Co., who have been showing at the hall, have closed their engagement Thursday night. Addie Taylor, daughter of E. E. Taylor of Roxbury, won the prize in the voting contest.

SOUTH CHATHAM.

A. W. Anderson of Fryeburg was the guest of relatives one day.

Arthur Pickering has gone to Newburyport, Mass., to work the coming winter.

Louise Glines, one of Sweden's school teachers, recently visited Mr. and Mrs. Osborne Anderson for the week end intermission.

G. L. Anderson and son Gordon of Everett, Mass., were recent guests of Mr. Anderson's parents at the ancestral home for a few days.

Will Bryant and wife and Arthur Bryant and wife of North Conway were the guests of relatives and former neighbors here recently.

Mrs. S. W. Hill of Whitefield, N. H., who has been the guest of her son, was last week visiting in Stow, where she has relatives and former neighbors.

Mrs. Minnie Reed and daughter, who have spent the summer at the home of Mrs. Reed's parents, Mr. and Mrs. O. Anderson, go to their home in Canada.

Mr. and Mrs. Dana Hill took advantage of the late excursion to Boston from Conway to visit relatives and friends in the vicinity of the Hub. A son, Forrest M. Hill, lives in Medfield, Mass., and other relatives in nearby towns.

Mr. Albion A. Perry of Somerville, Mass., who, with her husband, has spent much of the past summer in this place, at the home of Mr. and Mrs. G. H. Hill, was summoned to her home by the news of the illness of her mother, Saturday, Oct. 31st. Arrived at her home Mrs. Perry was met with the sad news that her mother's death had preceded her arrival by a few hours. Mr. Perry left on the Monday following but may return later in the season. Mrs. Means, the mother of Mrs. Perry, had been for some years an invalid, though not considered alarmingly ill, but her advanced age, a little over eighty, rendered her unable to resist a severe attack of sickness though medical aid and a competent nurse were in attendance from the beginning.

NORTH HARTFORD.

Albert and Percy Davenport visited over Sunday with John Davenport.

Mr. and Mrs. Guy Turner called at John Davenport's, Saturday night.

Francis Sargent sold a nice yoke of cattle to Laforest Whitman of Hebron.

Wilma Davenport went to Buckfield and had some dentist work done Saturday.

Edna and Wilma Davenport visited Mrs. Alice Turner, Friday night and Saturday.

Alonzo Oldham is having his potatoes dug with the digger. He had five acres to be dug.

John Bolus, with his dry goods cart, stayed all night at J. F. Davenport's, Friday night.

Freeland Farnum seems to be a little on the gain. He was operated on Friday and a large amount of pus taken from his lung. He had a silver tube put in to keep it clean.

There is lots of talk over large potatoes in this vicinity but the largest one heard of yet was raised by Arthur Godding, its weight being three pounds.

There was a husking bee at John Davenport's, Monday night. There were thirty-six present and about 100 bushels of corn husked. They departed at a very late hour. All seemed to have a jolly time.

Francis Sargent had a husking Thursday night and as there was a goodly amount of corn left he had another one the following Saturday night. After serving a good baked bean supper the crowd were entertained by music, singing and recitations.

DIXFIELD.

Mrs. Hattie Stockbridge is quite ill.

The Whitesides and Strauss show is billed for this town, Nov. 8, 9 and 10.

A. J. Austin was called to West Peru, Friday, by the serious illness of his father, Elbridge Austin.

Verne Rand of Millinocket recently visited his family at the home of Mrs. Rand's sister, Etta Holman.

Mrs. Ernest Godding of West Peru is in a Lewiston hospital, where she was operated on for appendicitis. Mrs. Godding was formerly Mamie Rowe of Dixfield.

For Stomach Agony.

Ask Frank Kimball About Mi-o-na, it Gives Relief in Five Minutes.

He will tell you that he guarantees Mi-o-na to relieve promptly and cure permanently all diseases of the stomach and indigestion, or he will return your money.

Have you gas on stomach? One Mi-o-na tablet and the misery is ended.

Are you bilious, dizzy or nervous? Mi-o-na tablets will put you right in a day; give relief in 10 minutes.

Now, dear reader, don't go on suffering with stomach trouble. Be fair to yourself; throw aside prejudice and try Mi-o-na. It is a great doctor's prescription. No doctor ever wrote a better one.

And money back from Frank Kimball if you don't say Mi-o-na is worth its weight in gold. Sold by leading druggists everywhere but in Norway by Frank Kimball, prop. of the Noyes Drug Store, 50 cents a large box. Test sample free from Booth's Mi-o-na, Buffalo, N. Y.

Mrs. Mary Hutchinson says: "Pains and distress in my stomach and a general stomach complaint was entirely cured for me by the use of two boxes of Mi-o-na and I have no hesitation in recommending its use." 508 Pearl Street, Ypsilanti, Mich., December 19, 1908. 45-47

The Talking Postal Card. I understand we are going to have a talking postal card and if we do what a lot of talking some of us will do. The talking postal card is the invention of a French engineer and has become so popular in France that the American rights have been secured and the device will soon be placed in the cities of the United States. The person wishing to send a talking postal card to a friend, enters the booth and talks into a machine that records the words on a specially prepared post card. When the recipient receives the card one hundred or a thousand miles away or more, he or perhaps she takes the card to the nearest booth and inserts it in a machine which talks the message it contains. The record on the postal card is indestructible and it is claimed the exact voice of the sender is heard. That's what we might call a telephone message by mail.

BETHEL.

Wednesday a generous rain was filling up the springs and brooks.

John S. Burbank has gone to Upton with Mr. Dresser of South Paris on a hunting expedition.

Hunters are passing through here for Upton and the Lakes, and yesterday two deer came in on the stage with a returning hunter.

The annual supper of the Universalist society, which was to have been given this Wednesday evening, was postponed on account of Mr. Rowe's illness.

Next Sunday the subject at the morning service in the Universalist church will be "The Use of the Anglo-Saxon Word, Hell, in Our English Version of the Bible."

There is likely to be a coal famine to those who have not put in their winter's supply of the black diamonds. Our local dealer here has been trying to get a cache of coal from Portland for the last three weeks and to his appeals the reply is "no cars" to send it on. The Grand Trunk is running a large amount of coal through to the north of us, said to be for its own use.

Edwin C. Rowe, who for a year or more has been in poor health, had recently been so much better that he had gone back to active work in his large department store here. Last week he went to Boston to buy the winter's stock and on the way home had an ill turn but reached home all right. The doctor was called and he considered the case as serious that Dr. Kilduff of Portland was sent for and last Sunday an operation was performed for appendicitis. The doctors found it to be a very bad case and considered that the chance for recovery was very slight. Mr. Rowe realized the critical nature of his case and made all necessary arrangements of his business affairs, so that if he did not rally everything would be as he wished it. Wednesday morning Mr. Rowe was resting comfortably, having had a good night and his slight chance of recovery is improving. The announcement of his sudden severe illness gave the community a shock and many sympathizing friends are anxiously waiting the results, hoping that he may be spared to us for many years yet.

THE STORY of the CHERRY TREE

Is generally associated with Washington's Birthday. Little George chopped down the cherry tree. You know the rest of the story. We have another cherry story that will interest you and we want to tell it to you.

It is about

Rexall Cherry Juice Cough Syrup

It's a tart and tasty syrup that doesn't upset your stomach nor derange your digestion as most cough remedies do—but it does cure cough and colds quickly. A single dose will relieve the tightest and most stubborn cough, four doses will stop your coughing and a 25c bottle will break up the worst cold you ever had.

New Grange Hall.

The West Paris Grange took in six new members at their all day meeting, Saturday, which they held in the Centennial hall, where they have been holding their meetings all summer while their new hall was being built. Their harvest dinner and supper was served for the first time in their new hall. The building is made of cement blocks and a fire proof roofing. The windows have all been put in and the grounds graded so that the outside is practically finished. One night last week they had a clearing up "bee" and removed the loose lumber and waste, cleared the floor, set up a cook stove and box stove for temporary service. They made about \$35 from the dinner and supper, which was of excellent quality and bountiful. They are going to have the furnace put in this week and the rest of the finish put on and the lower hall put into shape so they can use it this winter and be able to let it to outside parties.

South Paris, Maine Village Corporation

4 PER CENT., TAX EXEMPT, COUPON BONDS

Payable April and Oct. 1st. at the Paris Trust Co.

In Denominations of \$100, \$500 and \$1,000 Each

These bonds are optional after five years by consecutive numbers beginning with number one, thus making the \$100 bonds payable first and making the larger denomination a long term bond.

These bonds are a direct obligation of the South Paris Village Corporation and are issued to install the water system now in process of construction. The legality of the issue and all the proceedings leading up to it have been approved by the Hon. Wm. L. Bradley of Portland, Maine. This issue is inside the 10 per cent. debt limit as shown by the last assessed valuation:

| | | |
|--------------------|----------------|--------------|
| POPULATION | 1909 ESTIMATED | 1700 |
| ASSESSED VALUATION | 1909 | \$709,170.00 |

These bonds are a popular issue and should be a very desirable investment, both to the small and large investor. We look for a very active market in these bonds and being exempt from taxation in the State of Maine should attract those who wish to get very nearly 4 Per Cent. for their money.

NORWAY AND VICINITY.

Echoes from the Pomological Meeting.
The closing session was held Thursday evening, the chief speakers being Prof. E. E. Philbrook of Portland and R. L. Cummings of West Paris. F. H. Knowlton of Farmington, the former secretary, was called upon, and he spoke briefly on fruit growing.
Prof. E. E. Philbrook, special field agent in charge of the gypsy moth work in Maine, gave a stereoscopic lecture on the gypsy moth work in the State. This is the first time these slides, forty-five in number, have been shown, and the first time a lecture of this kind has been given. Prof. Philbrook gave a history of the gypsy moth work in the State, in a working, not a theoretical way.
"Why do we not go ahead and develop this great fruit industry?" he should be asked Mr. Cummings. "Our natural adaptation is second to none. We are near the great markets of this country. We are well situated for the foreign trade, being near the sea-board. You cannot develop this industry without capital."

Keep All Your Promises.

I like with all my heart any one who can keep the promise he makes to himself as rigorously as if they were made to another.

I went away on a vacation once with a girl who always took a cold shower bath every morning. With all the comforts of home, omitted as they quite frequently are when one goes vacationing, a shower bath was not a particularly easy process.

One morning when it was unusually cold, when the water supply was unusually scarce and getting up seemed unusually distasteful, I suggested:

"Don't bother to take your bath this morning."

"I must, I promised I would every morning for a year," she answered.

"Promised whom?" I asked, "your mother? I don't believe she'd mind if you missed it just once."

"Oh no; I promised myself," she said, so I must.

And to my thorough admiration she did.

Most of us think breaking faith with ourselves is a minor thing, but it does not seem so to me. Breaking a promise to one's self unless changed conditions give one full right to exonerate one's self seems as weak, if not as dishonorable, as breaking one's word to some one else.

"To keep one's friend without captivation and to keep friends with one's self on the same hard terms," was part of Robert Louis Stevenson's creed.

But that it is weak to break promises to one's self does not mean it is stronger to refuse to make them. On the contrary.

I do not like the man who has gotten to the point where he says at New Year: "I will not make any resolutions because I know I will break them."

The man who makes his resolutions with fresh enthusiasm and fresh hope each year, even if he does break most of them, has a far better chance of getting somewhere than the one who makes none.

But the man or woman with whom your word, your secret, or most precious of all, your heart, can best be trusted is the one who can both make and keep his promises to himself.

For it is as true now as it was 300 years ago:

"To thine own self be true
And it will follow as the night the day
Thou canst not then be false to any man."

More Trained Farmers.

This is the going away season, as well as the coming home. Trunks have been packed and sent, and the men and women beginning to write home for money. College boys, who this year have gone away from home to learn how to live, are more and more turning toward the agricultural courses offered in the fine State Universities.

Parents—especially city parents—realize that the farm life is the independent life; and the community applauds the agriculturally-inclined lad because it too knows that it is the farmer who is to be the salvation of the country. Unless less life and energy is concentrated in the city, and more is applied to the culture of soil, there is going to be a famine and poverty in this great country of ours.

The thousands of untitled western acres must be the food of our grandchildren.

The training of the boys of the present generation will mean everything in the future of our food question. Not only must more land be placed under cultivation, but farmers must be trained to work more and more the land already in use.

Old, orthodox farmers are apt to hoot at the claims of agricultural colleges; but it is rapidly being carried to such an extent that even the most doubting of them will soon be convinced. The agricultural department is not only promulgating literature to aid the farmer, but it is doing so in practice. Trained men are being sent to induce farmers to give up two or three acres to experiments toward increasing their crops. These farmers are gaining the interest of their neighbors.

Down South somewhere, there was a farmer who had never raised more than half a bale of cotton to the acre. When the government experts approached him he declared that it was impossible to raise more. At last, however, induced to experiment, he succeeded in raising a bale and a half on each of the three acres he devoted to the purpose. He thus tripled his yield of cotton.

It is not mere fancy with the thinkers. They know that unless the boys become trained farmers, this country will be importing corn and wheat, some day, instead of exporting, as it now does.

James Spinney, Pearl Flint, and H. E. Harlow, are taking a valuation of the town.

A speaker before a woman's club in Boston recently declared that "pie never developed a noble character." This in New England is rank heresy. As well might one say that baked beans never aided in the development of high mentality.

The Woodstock Inn.

This comfortable and attractive resort that caters to winter guests, is situated twelve miles from White River Junction, Vt., and is reached from Montreal by the Grand Trunk and Central Vermont Rys., to White River Jct., thence by the Woodstock Railway to Woodstock. The distance from Montreal is 180 miles. The "Inn" is delightfully located in hilly surroundings. The interior arrangements are all that is to be desired for comfort and cheerfulness. It is 700 feet above sea level, and a journey here can be passed at any season of the year. The Grand Trunk agents will cheerfully give information as to how to reach the "Woodstock Inn," and rates at this resort can be secured by addressing Mr. Arthur B. Wilder, Manager, "Woodstock Inn," Woodstock, Vt.

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Vienna, Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."

—Mrs. E. M. WILSON, Vienna, Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Some Don'ts.

Don't stick your deer in the neck and disfigure it. If you must bleed him stick him way down in the brisket.

Don't begin to write home for money. The blood will come out when dressing.

Don't split the neck up the front, this is important, either split it up the back of the neck or peel it down like a stocking.

Don't keep the head too long, but get it to the taxidermist as soon as possible.

Don't throw away the feet. They will make nice souvenirs to give your friends, when made up into ink-wells, ash trays, glass cases, pin-cushions and thermometers. The tail also makes an attractive thermometer.

Don't spill a good job on the head for the sake of getting the animal home whole to show your friends. Both they and yourself will appreciate a nice job on the head much better. So get it to Nash as soon as possible.

Don't cut the skin too short on the neck. Give the taxidermist a chance to use his judgment and experience. He knows his job and will make it right and it is better to have too much than too little.

If a deer, moose or caribou, split the neck up the back from a point between the shoulders to nearly up to a point midway the base of the antlers, then cut diagonally to base of each antler.

Skin the neck and when you reach the antler pull the skin away from the base; it will take some pulling to do this but be sure to get all the skin. After skin is got by the antlers comes the eyes and care must be used not to cut the lids.

In the lower corner of the eye is a pit where the tear gland goes; do not cut this but pry out the skin.

Don't clean the skin over the face like a socking and when you come to the lips leave all the inner skin attached also the nostrils by cutting close to the bone.

The same is true of the ears, do not try to get out too much of the flesh from these parts. After removing the skin prime it thoroughly with salt. (Liverpool salt is best.)

Lay the skin in a cool place with the flesh side up if you are in a permanent camp, but not roll it up with flesh side in. Next clean all the meat from the skull you can and either smoke or salt it well, and the head is ready to be carried around until you can get to the taxidermist.

Beckler-Farrar.

A charming wedding occurred at Maple Avenue Stock Farm, Sunday, the beautiful home of the bride, on Sunday, Oct. 31st at 4 p. m., when the marriage of Urieas M. Beckler and Luella L. Farrar took place. The ceremony was performed by Rev. G. W. F. Hill of Paris, the immediate relatives of the family were present.

The bride and groom are both well known and are residents of Summer. Mr. Beckler is the postmaster at Summer and is also engaged in trade in the place. The bride is the only daughter of the late Frederick A. and Polly T. Farrar. They will make their home at Mr. Beckler's residence at the Summer postoffice.

A New Use for Flies.

Who has not thought flies a nuisance and lost temper in chasing them and wondered what they were made for, but naturalists, who believe that God makes no mistake in creating and designs every creature for some good end, are pretty sure to find out the end by diligent search. And so Mr. Emerson, an English naturalist, has found out some curious facts about flies.

Did you ever watch a fly which has just alighted after soaring about the room for some time? He goes through a series of operations which remind you of a cat licking herself after a meal or of a bird plucking its feathers. First the hind feet are rubbed together, then each hind leg is passed over a wing, then the forelegs undergo a like treatment; and lastly, if you look sharp, you will see the insect carry his proboscis over his legs and about his body as far as he can reach. The minute trunk is perfectly retractile and it terminates in two large lobes which you can see spread out when the insect begins a meal on their prey; wherever filth exists, evolving germs which might generate themselves with the minute organisms and greedily devouring the same.

Mr. Emerson states that he began his self-appointed task of finding out whether the house fly really serves any appreciable purpose in the scheme of creation, excepting as an indifferent scavenger, by capturing a fine specimen and glueing his wings down to a microscope slide.

On placing the slide under the instrument, to the investigator's disgust, the fly appeared covered with lice, causing the offending insect to be promptly released and another substituted in his place. Fly No. 2 was no better off than fly No. 1, and as the same might be predicated of flies 3, 4, 5, Mr. Emerson concluded that here was something which at once required looking into. Why were the flies lousy? Meanwhile fly No. 2 on the slide seemed to take his position very coolly, and extending his proboscis began to sweep it over his body as if he had just alighted. A glance through the microscope, however, showed that the operation was not one of self-beautification, for wherever the lice were the trunk went. The lice were eating them.

He took the paper into the kitchen and waved it around, taking care that no flies touched it, went back to the microscope and there found animalcules, the same as on flies. He had now arrived at something definite: the animalcules were floating in the air; and the quick

motions of the flies gathered them on their bodies, and the flies then went to some quiet corner to have their dainty meal.

The investigator goes on to describe how he continued this experiment in a variety of localities and low, in dirty and bad-smelling quarters he found the myriads of flies which existed there literally covered with animalcules, while other flies, captured in bed rooms or well ventilated, clean apartments, were miserably lean and entirely free from their prey; wherever filth existed, evolving germs which might generate themselves with the minute organisms and greedily devouring the same.

GILEAD.

J. M. Newell is at work in Shelburne on a cottage for A. E. Philbrook.

Hiram Emery of Boston has been on his usual visit to Gilead. He made a much shorter visit than usual.

The Gilead Congregational church has received \$500 from the estate of Mrs. Annie C. Cole of Port Lake, Michigan.

David Keniston and son and wife have moved into town from Vermont and are occupying one of George E. Leighton's rents.

SACK SUITS

Are the commonest garments worn by men in ordinary daily activities; the regular thing for business. That's all the more reason for having

Hart Schaffner & Marx

clothes; because the sack suits they make for us are not common looking at all; they're distinguished; a man dressed in one of our suits looks different; looks dressy, stylish without being extreme in dress. The fine tailoring does it; the correct designing in style; and the quality of all-wool fabrics, helps the general effect. We know of no other clothes that compare with them in these points.

Dear John:

I won't be home until 6 o'clock but your dinner is all ready for you. I put it in the Mother's Oats fireless cooker at 11 o'clock this morning and you will find everything hot and steaming just right as always.

Your loving wife
Mary.

Why shouldn't Mary have a good time now and then with her friends? John's dinner will be just as well cooked since a Mother's Oats Fireless Cooker is in the house; it will be just as hot and steaming. Mary paid nothing for the Cooker; she saved coupons out of

Mother's Oats

and other Mother's Cereals, and secured a \$3.75 Cooker free. She saves 80% of her fuel bills; she hardly goes into the kitchen at all, and she isn't forced to bend all afternoon over a hot stove; she arises an hour later than usual, and doesn't have to rush down stairs to prepare Mother's Oats for breakfast. The coupons are found in:

Mother's Oats
Mother's Corn Meal (white or yellow)
Mother's Wheat Hearts (the cream of the wheat)

I want a cord or less of all barnyard manure—will pay good price delivered at Round Pond. F. W. Sanborn, Nor- way, Me.

Fresh eggs are up to fifty-five cents per dozen in the city markets, and the hens are so proud they have nearly all quit work.

BETHEL.

Every day brings one or more hunters on the trains, and from here they strike out by stage or private conveyance, for the lakes and great hunting grounds north of here.

November has been quite mild up to the present, with just cold enough to remind people that it is time to stow away screens and put on storm doors and double windows.

Rev. J. H. Little went to New Gloucester Friday week to give his address on Patriotism, Citizenship and the Grange, at Intervale Grange Hall. There was a large audience, a supper and a program of music with literary exercises. The object was to raise funds to buy a piano for the hall.

Several families here who did not put in their winter supply of coal during the summer months are being considerably inconvenienced just now for want of coal. Our local dealer, Mr. Davis, has been trying for two weeks to get a car load of coal from Portland, but for want of cars the Grand Trunk R. R. has been unable to haul it. This mild weather is favorable for those whose coal bin is empty or nearly so.

Gilbert Tuell and Edna Beal Gilbert were recently married in St. Louis.

Mr. and Mrs. Hiram Bean have returned from a visit in Massachusetts and Vermont.

Sunday evening the children of the Congregational Sunday school held a harvest concert.

Mrs. Roxanna Bean passed away at her home on Mechanic street, after several months of illness. Rev. C. L. Banghart officiated at the funeral services.

Mrs. Mary Oliver Wilson died suddenly at her home. The funeral services were held at the home of her son, Irving Wilson. Rev. W. C. Curtis, pastor of the Congregational church of which she had long been a member, officiated.

Prof. W. R. Chapman now owns the largest farm in Bethel. He recently purchased land from Horatio Upton, also timber upon the late Ann Rowe estate and the timber and Intervale of Lisco Hall and Elsie Hall.

Grover Hill. Fred Munndt was at home from Newry over Sunday.

Mr. and Mrs. Fred Hamlin of Berlin, N. H., recently visited at Norman Sanborn's.

Mr. and Mrs. Myles O'Reilly of West Bethel were guests at N. A. Stearns'.

Ruby Perkins of Bethel Hill was the guest of Gwendolyn Stearns, Saturday and Sunday.

Fred Wheeler and wife and sister, Mrs. Alice Cole of West Bethel visited relatives in Albany, Sunday.

SOUTH BETHEL. James Hutchins is on his route again after his vacation.

Simon Grover of Norway was at G. E. Grover's a few days recently.

Lorna Littlehale called on Mr. and Mrs. G. E. Grover, Sunday.

A. E. Cushman has moved into Mrs. Farwell's rent and Mr. Proctor has moved into the rent across the bridge.

Amos Barnett, wife and daughter Bertha, who have been visiting at J. B. Barnett's, have returned to their home at Mechanic Falls.

Mrs. A. E. K. Grover thinks her new home should be called "Wabun," Indian name for east wind, as it is a lovely breezy place and can't help being healthful.

C. W. Willey has moved from his cottage by the pond to his winter home at South Bethel. Mrs. Willey thinks very favorably of Maine as a place to live, although used to the sunny southern breezes.

We were shown a rare sight recently in a pile of wood which was placed in the woodshead of Mrs. Jonathan C. Robertson by herself over forty years ago. Mrs. Robertson has been dead many years, but her daughters have cherished it as the laborious work of their mother's hands, and there it remains, which in this age of rushing things along is indeed a curiosity.

WEST BUCKFIELD. Roy Buswell is at work for A. S. Hall. Mr. Kerr of South Paris threshed a few lots of grain.

Wilber and Georgia Warren were at Harry Buck's, Sunday.

Roy Briggs has finished work for Mord Rowe and is at home.

Mrs. James Richards does not gain; her health is very poor.

Miss S. E. Warren of East Buckfield visited her cousin, Mrs. Henry Buck.

Llewellyn Jordan and Arthur Turner packed apples for H. H. Buck, Monday.

Mrs. Record and daughter Anna and Ella Briggs of Norway were at S. E. Briggs', Sunday.

PE-RU-NA THE GREAT TONIC

SOUTH WOODSTOCK.

School in the Union district, Della E. Giles, teacher, closed Nov. 12th, for a two weeks' vacation. The exercises were as follows:

November School Composition, The Pilgrims in England, The Pilgrims in Holland, Della Thurlow Concert Recitation, The Sea, The Ocean Voyagers, The Pilgrims in America, The First Winter, The Pilgrims in the North, The First Thanksgiving, The Pilgrims in the South, The Pilgrims in the West, The Pilgrims in the East, The Pilgrims in the North, The Pilgrims in the South, The Pilgrims in the West, The Pilgrims in the East.

A treat of peanuts and pop corn-balls was enjoyed, then games and prizes were played. Pupils not absent 1/2 day: Alanson Cummings, Arthur Beck, Fred Cash, Vernon Wheeler, Gerald Davis. Alanson has not yet missed one session in three terms of school.

Oxford County Cow Test Association. The regular meeting of the Oxford County Dairy Testing Association was held at Canton, Tuesday, Nov. 2, and while the attendance was not as large as it has ordinarily been, yet the interest was splendid, and good results will come from the meeting.

C. T. Bouney, president of the association, gave a talk during the forenoon session. During the afternoon session a lecture was given by Dairy Instructor Merrill on the lessons to be learned from Dairy Testing Association work concerning feeding problems.

A. C. Cook, the official tester of the Association brought out some very important lessons from the association work. In one instance where a change in grain ration was recommended by Mr. Cook and followed by the owner of the herd on the animals composing the herd, an increase in production of more than an average of \$1.00 per month resulted. At the same time the cost of the ration and its protein contents were lessened.

The next meeting will be held at East Sumner the first Tuesday in December, and at that time a demonstration will be given by a representative of the department in the lessons to be drawn from, and the value of weighing the milk yield of each animal daily.

Cumberland-Oxford Pomona. Cumberland-Oxford County Pomona mat with the West Baldwin grange, Nov. 12th, with nearly 100 present at the dinner. In the afternoon, an open session was given. The address of welcome, given by Nellie Black, was brief, broad and comprehensive. Melville Gould of Hiram gave the response. He was more than pleased to have one of the Sisters give the address of welcome. He furthermore said the grange was seeking after co-operation among its members.

Then followed music by the Weeman's orchestra; reading by Grace Black; solo by Nellie Black with Mrs. Prince of Kezar Falls as accompanist. A brief talk by Walter McKen was followed by an impressive memorial exercise led by Rev. Cyrus Purinton with the audience repeating the Lord's Prayer. Mrs. Lillian Black played "Nearer, My God, to Thee," "Sweet and Low" on the piano. A reading was given by Mrs. Hannah Burnell-Bessie and a piano solo by Essie Weeman. W. J. Thompson, State Lecturer, gave a lecture.

He showed how the past and present were closely connected. The three essential principles or features that made individual or nation rise above its environments and helped the uncivilized to civilized life was first to fight and then to do justly and give the "square deal," and third to combine them with love and mercy. This address was followed by readings by Rev. Cyrus Purinton, and Annie Guphill; and a duet by Nellie Black and I. S. Chase.

The granges represented were Mt. Gilead, Mt. Elna, Maple Grove, Highland, Frost Mountain, Fryeburg, Naples, Crystal Spring, with visitors from Cornish and Charter Oak of Kezar Falls.

Oxford and Cumberland Counties Jersey Breeders. In spite of a rainy day there were fourteen present when the meeting was called to order by President H. W. Evans of North Brighton in his comfortable parlor. Minutes of the last meeting were read by Secretary Hamlin, and the usual routine business was carried out. Clifford C. Smith was elected to membership.

The next meeting will be held Wednesday, Feb. 8th, in the Grange hall at South Waterford, where the members will discuss Jersey families.

A discussion of the opportunities and possibilities of the association was led by Asst. Dairy Instructor Redman, and followed by various members, after which the meeting was adjourned to the dining room where the well filled tables were lighted for their load. In the afternoon the meeting was called to order in the stable, where Asst. Dairy Instructor Redman explained the use of the score card. Denmark Merry Maiden, an A. R. O. animal, was brought out, scored by the members and then by Mr. Redman, discussing each point in turn. Another animal was scored in this manner, two were judged comparatively, and two more examined and their points discussed. The members took an active interest in the work, and it is expected in the future a class in stock judging will be held at every meeting, except the one coming in February, when it will not be convenient to have stock present. A list of the stock for sale will soon be prepared by Sec. C. S. Hamlin, P. O., Harrison, which may be looked over by prospective purchasers.

PORTERFIELD.

Mrs. Eben Norton is very sick. Mrs. Myrtle E. Durgin is quite ill. Charles Walker is working for R. N. Lowell.

George E. Clemons is working for R. N. Lowell. Sidney Walker and wife will move to Bartlett, N. H.

Seth I. Day has given his horse to Sidney P. McDonald. Quite a number from Sanford are visiting at Ohas. Lewis'.

C. F. Lewis has bought a yoke of oxen of George Walker. M. R. E. Clemons is home from John Durgin's, where she has been working.

Washie Day and Waldo Lowell have taken the timber to saw on the Wilhe Day lot.

Mrs. Emma Day passed away Oct. 27, after a long and lingering illness. Funeral services were conducted at the Lord's church. She was survived by three sons and four daughters, a number of grandchildren, and nieces and nephews besides friends who mourn their loss.

Let those who love the White Mountains rejoice then for the justly celebrated Glen Ellis Falls and the Crystal Cascade have both been handed over to the trustees of real estate of the Appalachian Mountain Club, to be by them administered as public reservations. These two beautiful falls lie at the foot of Mt. Washington in Flakham Notch, about four miles below the old Glen House location, and ten miles north of Jackson "City." Ever since the White Mountains became known to the tourist these falls have been held among the choicest features of the region. Sweet regarded Glen Ellis as "the finest fall in the White Mountains." Of the Crystal Cascade, Starr King wrote in his "The White Hills."

Where the Finest Flour is Made

"The bread-making qualities of flour are due entirely to the kind of wheat. Nature gives to wheat, and flour, all the strength they possess." R. JAMES ABERNETHY, in "The American Miller."

WILLIAM TELL FLOUR is made from the finest specially selected OHIO Red Winter Wheat. President John W. Burck who personally inspects the wheat offered for this famous flour, has an experience of 45 years at the business. Every shipment of grain must come up to the long established William Tell standard in every respect.

Ask any expert. He will tell you that the whitest—most delicious bread—the lightest biscuits, the kind that melt in your mouth—are made from the flour of this wheat. That's the only kind that goes into—
